Cyber World: Tales of Humanity's Tomorrow

An anthology of new cyberpunk with a foreword by Richard Kadrey

Coming November 8, 2016 from Hex Publishers

"This is the upgrade: the new, real sound of diverse futures, mad and magnificent, the world on a wire. Essential.

--Warren Ellis, author of Gun Machine and Transmetropolitan

Cybernetics. Neuroscience. Nanotechnology. Genetic Engineering. Hactivism. Transhumanism. The world of tomorrow is already here, and the technological changes we all face have inspired a new wave of stories to address our fears, hopes, dreams, and desires as Homo Sapiens evolve--or not--into their next incarnation. *Cyber World* presents diverse tales of humanity's tomorrow, as told by some of today's more gripping science fiction visionaries.

"This is old-school cyberpunk written by new-school talent--the caliber of writers found in this book is a dream-team of storytellers ready to hack into your skull and implant their tales into your brain-meats. Cyberpunk gives the cyberpunk genre a much-needed reboot.

--Chuck Wendig, New York Times Bestselling Author of Star Wars: Aftermath and Zeroes

Edited by Hugo Award-winner Jason Heller, and Joshua Viola, and available November 8, 2016, the book stars foundational cyberpunk authors, and new voices in the genre. The table of contents features Isabel Yap, Nisi Shawl, Saladin Ahmed, Alyssa Wong, Paolo Bacigalupi, Minister Faust, Mario Acevedo, Warren Hammond, Cat Rambo, Matthew Kressel, Madeline Ashby, Paul Graham Raven, Chinelo Onwualu, Alvaro Zinos-Amaro, Angie Hodapp, Sarah Pinsker, Keith Ferrell, E. Lily Yu, Stephen Graham Jones, and Darin Bradley, with a foreword by Richard Kadrey.

But Cyberpunk has always been a genre of the senses and immersion. *Cyber World* will be accompanied by a limited-edition soundtrack primarily scored by prolific musician Klayton. Known for intricately designed soundscapes and a blend of musical styles, his music has been featured in movies, games, and TV shows. The soundtrack will include music from Celldweller, Circle of Dust, Mega Drive, and Scandroid, and was curated specifically for this anthology.
